EXAMINER'S AMENDMENT

An examiner's amendment to the record appears below. Should the changes and/or additions be unacceptable to applicant, an amendment may be filed as provided by 37 CFR 1.312. To ensure consideration of such an amendment, it MUST be submitted no later than the payment of the issue fee.

1. The application has been amended as follows:

Claims 1-3,5-12,15-18,22-31,33-41,43,44,46-50 and 52-55 have been renumbered as claims 1,2,5,9,14,18,21,8,23,24,30,35,38,41,43,3,6,10,11,15,12,16,19, 4,7,13,17,20,22,25,26,31,27,32,28,33,44,36,39,29,34,45,37,40 and 24, respectively.

2. The following is an examiner's statement of reasons for allowance: present application discloses a spread spectrum system determining variance of a received signal. Prior art teaches all subject matter claimed, however, prior art does not explicitly teach calculating variance estimate by integrating despread sample signal over a spreading code length of said received spread spectrum signal; integrating a signal corresponding to a power of said despread sample signal over said plurality of spreading code lengths; and subtracting a signal obtained by squaring an output signal of the result of the integrating step of said despread sample signal from an output signal of the result of the integrating step of the signal corresponding to the power of said despread signal, wherein one skilled in the art would recognize that prior art does not teach apparatus performing equivalent function of the method steps above, and further does not explicitly teach wherein the expectation value is

obtained as recited in the claim of c/m, and the equation recited to determine the interference estimate. And further, prior art does not explicitly teach averaging the output of the subtracting means over the predetermined symbols of the received signal.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."

Any inquiry concerning this communication or earlier communications from the examiner should be directed to Sam Ahn whose telephone number is (571) 272-3044. The examiner can normally be reached on Monday-Friday.

If attempts to reach the examiner by telephone are unsuccessful, the examiner's supervisor, Mohammad Ghayour can be reached on (571) 272-3021. The fax phone number for the organization where this application or proceeding is assigned is 571-273-8300.
